C50 RG174 + 2 Power Cores Coaxial Cable – 100M (Plastic Roll)

Low-Voltage Signal & Power Transmission Cable

1. Product Overview

The C50 RG174 + 2 Power Cores Cable (100M Plastic Roll) is a professional low-voltage coaxial cable designed for combined signal and power transmission in CCTV and communication systems. Supplied on a durable plastic roll for organized storage and easy installation, this cable integrates RG174 coaxial with two power cores to simplify wiring and reduce installation time in surveillance and low-voltage projects.

Manufactured with a 0.50mm pure copper inner conductor, NEW HDPE dielectric (1.5mm), and advanced triple-layer shielding (6mm aluminum foil + 64 × 0.12mm CCA braiding + additional 12mm aluminum foil), it ensures stable signal transmission, minimal interference, and consistent long-distance performance.

The white PVC outer jacket provides durability for both indoor and outdoor environments.
