USB-C 3-in-1 Multiport Hub

4K HDMI @30Hz | USB 3.0 5Gbps | 100W PD Fast Charging

1. Product Overview

The ST-Standard 9175 is a professional USB-C 3-in-1 multiport hub designed to expand a single USB-C port into HDMI display output, USB 3.0 high-speed data transfer, and USB-C Power Delivery charging. Engineered for institutional and professional environments, the hub supports Ultra HD 4K@30Hz video output (on compatible devices with DisplayPort Alt Mode), USB 3.0 data speeds up to 5Gbps, and Power Delivery fast charging up to 100W (maximum 85W output depending on host device). Manufactured with a premium aluminum alloy housing for enhanced durability and thermal management, the device supports continuous 24-hour operation and includes built-in over-current and short-circuit protection.

Designed to operate without WiFi interference and requires no driver installation (Plug & Play).
