

Camera Cable RG174 ST-174CC50 50M

ST-174CC50 RG174 + 2DC CCTV Cable – 50M

Professional CCTV Video & Power Transmission Cable

Short Description

The ST-174CC50 50M RG174 + 2DC CCTV cable combines video and power in one reliable cable, ensuring stable signal transmission and simplified installation.

It features a 0.50mm CCAM conductor, advanced HDPE insulation, aluminum foil shielding with 64 CCA braiding, and a durable PVC outer jacket, making it ideal for both indoor and outdoor applications.

Product Overview

The ST-174CC50 is a professional CCTV cable designed to integrate video and power transmission into a single solution.

By combining RG174 coaxial cable with 2DC power cores, it reduces installation complexity and cost while delivering stable performance.

Its dual shielding structure ensures minimal interference, providing clear and consistent video quality in various installation environments.

Key Features

- RG174 + 2DC (Video + Power in one cable)
- Stable and clear signal transmission
- Dual shielding for interference protection
- Easy installation & reduced wiring cost
- Flexible and durable construction
- Suitable for indoor & outdoor use

Technical Specifications

Parameter	Specification
Cable Type	RG174 + 2DC (Video + Power)
Length	50 Meters
Video Conductor	0.50 mm CCAM
Conductor Structure	1.5 mm

Parameter	Specification
Insulation	New HDPE
Shielding	Aluminum Foil (Copper Color)
Braiding	64 CCA
Power Cable	2 x (15 x 0.16 mm)
Outer Jacket	Pure PVC
Color	White
Application	Indoor & Outdoor CCTV Systems

Performance Benefits

- Reliable and stable signal transmission
- Reduced electromagnetic interference
- Lower installation time and cost
- Strong mechanical protection and flexibility

Warranty

- Indoor Use: Lifetime Warranty
- Outdoor Use: 5 Years Warranty
